Auswide Communications provides telecommunications equipment and solutions across a variety of industry sectors throughout Australia.

Auswide Communications offers you customer support in not only choosing the right headset for your environment but also on the installation and ongoing requirements of your headsets.

Let us help you find the right wireless headset for your environment!

Wireless headsets increase productivity for your employees!

HOW? With a wireless headset users can multitask by taking a call up to 100 meters from their desk! This means they can send a fax, grab a coffee and take a call all at the same time.
